

LIGHT SOURCE

Who We Are

We are an Iranian based glassmaking organization endeavoring to utilize innovative and creative styles using the most modern technology for interior and exterior designs. Our approach is client centered using the most sophisticated and authentic solutions inspiring them to select the most desired designs appropriate to their tastes and needs both internally and externally. There is wealth of ideas to select whatever style one would wish to have.

Our company employs different approaches, styles and techniques using the most up to date technological advances to create the most sophisticated and desirable designs required for different clients' needs.

Although glazing has in the past been thought of as a purely practical aspect of construction and architecture but in recent years there has been certain advances in the technologies dealing with such an element making it a unique material which has the potential to transform any space both at a practical and an aesthetical level. These utilities have been increasing at an exponential rate making the designs more practical and desirable.

It is thought that an advantage that the glass has it offers as it has been mentioned several times a unique way "to invite the outside world in". This creates a sense of flow between interior and exterior designs to create a sense of flow.

Using the above mentioned techniques and styles, our company is capable of working and providing services to small and very large architectural entities such as luxury hotels, impressive and eye catching large malls. The light fixtures are designed in such a way as to set the desired mood in restaurants and similar residences.

We are always committed to deliver the right solution. Our main aim is to turn dreams into reality with a creative and most desirable approach to the clients' best possible satisfaction.

IN OUR HANDS WE CAN TURN YOUR IDEAS INTO REALITY

SATURN

The beauty of the light fixture centres on a simple shape and the ever-attractive contrast. The smooth hand-blown bowls were rotated ninety degrees and suspended with the convex parts facing one another. This created a wave that is very elegant yet also pleasantly disordered.

Wandering Leaves

Our leaves were not blown by the autumn wind but by our master glassmakers. Very close to how nature itself designs, each of the components is shaped by hand, which makes every piece as original as the one on the earth. By applying a metal coating to the crystal leaves, the perception of depth is enhanced and the frond gives off a radiant shine.

Scales

Hand blown opal opaque component, gold nanocoating finish. We found inspiration in delicacy. We let the wavy leaves flutter about arbitrarily above the ground so as to create an atmosphere of pleasant carelessness and ease. It only depends on your personal taste whether you choose to highlight their delicacy by pastel tones or accentuate their force by sharp contrast.

Aurora

Aurora Watch Aurora Borealis glow. Inspired by the northern lights and their fascinating color play, Aurora brings the rare natural phenomenon inside. Each handblown glass pendant is made of two parts – a crystal drop with a soda effect inside and a transparent cap with a beautiful metallic finish. Together, suspended in a beautiful formation, they create a magically dynamic light show controlled directly from your smartphone.

Origin

A SOURCE OF LIFE, AN OCEAN, AND ITS INHABITANTS – THAT IS ORIGIN. IN A GLASS FORM – ORIGIN USES AN ARTISANAL APPROACH TO HANDBLOWN GLASS AND EMBRACES THE TINY DELICATE BUBBLES INSIDE THE SEASHELL-INSPIRED COMPONENTS. LIKE IN THE WATER, WHERE A TRACK OF BUBBLES IS ALL THAT'S LEFT, LIGHT REFLECTS DIFFERENTLY HERE, OFFERING A SPECIAL AURA TO EACH PIECE. WHEN CONTRASTED WITH LEATHER, IT BECOMES A BOHEMIAN ORNAMENT, BRINGING US BACK TO WHERE

SIZE VARIATIONS
